AMERITEK WATER®

5-Stage RO Drinking Water System

Model JAA-2186

Clean, clear drinking water right from your tap.

5 STAGES OF ADVANCED FILTRATION

1. **Stage 1**
   20 Micron Sediment
   Removes dirt, sand, rust, and other large particles.
2. **Stage 2**
   GAC Carbon
   Reduces chlorine, taste, odor, and organic chemicals.
3. **Stage 3**
   Block Carbon
   Further reduces chlorine, VOCs, and other contaminants.
4. **Stage 4**
   RO Membrane
   Reverse osmosis membrane reduces up to 99% of dissolved solids and contaminants.
5. **Stage 5**
   Polishing Carbon
   Final polishing for great taste and fresh, clean water.

KEY BENEFITS

- Great-tasting water for drinking and cooking
- Reduces sediment, chlorine, taste, and odor
- Reverse osmosis filtration for high quality water
- Ideal for beverages, baby formula, and food preparation

A compact under-sink solution for cleaner water every day.

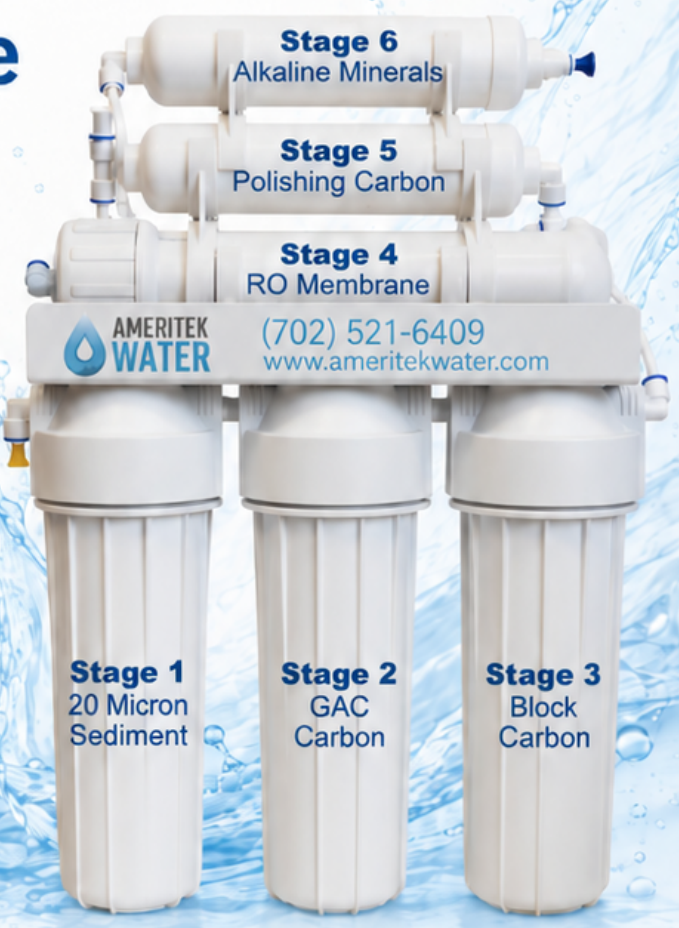
AMERITEK WATER®

6-Stage Alkaline RO Drinking Water System

Model JAA-0424

Great-tasting alkaline water from your tap.



6-STAGE FILTRATION

1. **Stage 1:** 20 Micron Sediment
2. **Stage 2:** GAC Carbon
3. **Stage 3:** Block Carbon
4. **Stage 4:** RO Membrane
5. **Stage 5:** Polishing Carbon
6. **Stage 6:** Alkaline Minerals

SYSTEM BENEFITS

- 6-stage drinking water treatment in one compact system
- Helps reduce sediment, chlorine, taste, and odor
- RO membrane helps reduce dissolved solids
- Alkaline mineral cartridge enriches water and helps raise pH
- Ideal for drinking, cooking, and healthy hydration

Supports refreshing alkaline water, approximately 9.5–10.5 pH.

AMERITEK WATER

Ameritek Water® Alkaline Drinking Water System

Model: JMA-8 Stage Tankless

Pure, refreshing alkaline water from a compact tankless system.

Advanced 8-stage filtration with alkaline mineral enhancement delivers clean, great-tasting, healthy water for your home.

8-Stage Filtration

1. **Stage 1 - Sediment Filtration**
   Removes larger particles such as sand, silt and rust.
2. **Stage 2 - Pre-Carbon**
   Reduces chlorine, chemicals and volatile compounds.
3. **Stage 3 - Advanced Carbon Block**
   Further removes chlorine, taste, odor and organic matter.
4. **Stage 4 - RO Membrane**
   High-performance reverse osmosis membrane removes up to 99% of dissolved contaminants.
5. **Stage 5 - Post-Carbon**
   Polishes water for a clean, fresh taste.
6. **Stage 6 - Mineral Enhancement**
   Adds beneficial minerals for improved taste and balance.
7. **Stage 7 - Alkaline Balance**
   Naturally increases pH for alkaline, healthier water.
8. **Stage 8 - Polishing Filter**
   Final filtration for pure, crisp, great-tasting water.

System Benefits

- Space-saving tankless design
- High-output tankless performance.
- Helps reduce sediment, chlorine, taste and odor
- Advanced reverse osmosis filtration
- Alkaline mineral enhancement
- Smart filter indicator lights
- Ideal for drinking and cooking
- Clean, great-tasting water for a healthier home

AMERITEK WATER

Ameritek Water® Residential Salt-Free Water System

Model: AWW-SF-0211

A premium residential salt-free water conditioning solution designed to help reduce scale buildup while delivering cleaner, better conditioned water throughout the home. The AWW-SF-0211 combines elegant stainless-steel construction with dependable whole-house performance and low-maintenance operation.

System Benefits

- Salt-free operation
- Helps reduce scale buildup
- Stainless-steel jacketed tanks
- Low-maintenance design
- Whole-house water treatment
- Clean, conditioned water throughout the home

Key Features

- Dual-tank system design
- Advanced prefiltration stage
- High-flow residential performance
- Durable stainless-steel construction
- Premium control valve system
- Professional installation and ongoing support

Ideal Applications

- Single-family homes
- Large residences
- Upscale homes
- Remodels / replacements
- Whole-house protection
- Residential properties

AMERITEK WATER

CLEANER WATER
STRONGER BUSINESS
BRIGHTER TOMORROW

Ameritek Water® Commercial Water Softening System

Model: AWWS-COM 3500

A high-performance commercial water softening solution for businesses that need dependable, high-capacity treatment to help address hard water, scale buildup, and equipment protection. The Ameritek Water® AWWS-COM 3500 delivers reliable, consistent softened water to help keep your operations running smoothly and efficiently.

System Benefits

- **High-capacity commercial softening**
- Helps reduce hard-water scale buildup
- Protects plumbing and water-using equipment
- Supports improved performance of commercial fixtures and appliances
- Designed for dependable long-term operation
- Ideal for restaurants, offices, coffee shops, retail spaces, and other commercial properties

Key Features

- **Commercial-grade resin media**
  High-capacity, premium resin delivers reliable water softening performance.
- **Automatic control valve**
  Advanced, user-friendly control valve for efficient and dependable operation.
- **High-flow performance**
  Engineered for commercial demands and consistent water flow.
- **Durable mineral tank construction**
  Built for long-term reliability in commercial environments.
- **Efficient regeneration cycle**
  Restores softening capacity automatically for continuous performance.
- **Professional installation and ongoing support**
  Expert setup and dedicated support to keep your system running at its best.

Ideal Applications

- Restaurants
- Cffés / Coffee Shops
- Office Buildings
- Salons
- Retail Locations
- Light Commercial Properties
